Learning Management System (LMS)

Counselling Process

Mode of Counselling :- Synchronous & Asynchronous

Brief describe the provision in LMS to be used by HEI :-

We have a user friendly LMS platform built with a user interface which can be customized by each faculty based on the course requirements. The LMS platform is easily navigable by the students and is quite adaptive. The LMS platform comes in both android and iOS versions in addition to the desktop version. Video conferencing and live chat facility are integrated with the LMS which helps to deliver live audio video lectures & other student engagement activities. The platform is being hosted on AWS Cloud in India and has 1Gbps of Internet bandwidth that can be increased as per future requirements. The LMS platform has been built with capacities to include graphical exercises, audio-video exercises, AV tutorials and case studies across various formats. • Several Live conferencing systems are integrated into the LMS platform through API's. Live sessions will be conducted using Google Meet, ZOOM or Microsoft Teams which are integrated with the platform. The LMS platform has been enabled with its own chat engine for a faculty/student discussion. The learning platform has the following provisions integrated. - Blogs - Discussion forums for students - Feedback module - Faculty chat - Survey module - Web linkage • LMS supports mobile learning and promotes a flexible learning environment where students can learn as self-paced and in a very convenient time and manner.

Briefly write how the Learning Management System (LMS) will ensure the following: (provide a demo link, if available) :- <https://lms.srisriuniversity.edu.in/>

Assessment mechanism	The LMS platform supports various question types: - Comprehension type questions - MCQ - Matching answers - Numerical and calculative questions - Subjective essay type - Short answers type - True-false Audio-video questions - https://lms.srisriuniversity.edu.in/mod/quiz/view.php?id=2284 The LMS platform supports online submission and grading of assignments. https://lms.srisriuniversity.edu.in/course/view.php?id=244&ion=6
Identified technological interface and interoperability	Web Portal and Mobile App (android and ios) are the interface for learners. The application provides the user state of art features of technological interface and interoperability. • Portal URL*: https://portal.srisriuniversity.edu.in/
Learner's Authentication Requirements	The learner gets unique login credentials based on their personal email id and linked contact number and shall use the LMS through the secured login only. A non- learner cannot access the LMS at any given point of time as the system does not permit them to login without proper credentials. - The solution runs on HTTS servers and are behind firewalls - The IP address of each learner is tracked and logged - The entire footprint of the learner is tracked and stored
Learner Registration - through a web application	The LMS provides a streamlined user registration process and allows for detailed user profiling. Each user is assigned a personalized dashboard, which displays relevant information and resources based on their profile and learning needs. This personalization enhances the user experience and facilitates more effective learning.
Active Engagement of the Learners along with Analytics for active engagement of learners and Reporting	We have provided the following features on the learning platform. - Interactive videos - Gamification - Collaborative group projects - Facility to track learner progress using our dashboards - https://lms.srisriuniversity.edu.in/course/view.php?id=244&ion=7 - Peer-group interactions are available in the platform - The LMS platform is linked to social media like Linked-in and FB. Wherein students can add their social media profiles and share their achievements. - The faculty members can divide the classes into smaller cohorts and conduct breakout room sessions with them individually. - https://lms.srisriuniversity.edu.in/course/view.php?id=244 Customized dashboards are enabled for different stakeholders: • Student dashboard • Faculty Dashboard • University leadership dashboard • https://lms.srisriuniversity.edu.in/course/view.php?id=244
Payment Gateway –using Digital Payment system	We have provided the following features on the learning platform. - Interactive videos - Gamification - Collaborative group projects - Facility to track learner progress using our dashboards - https://lms.srisriuniversity.edu.in/course/view.php?id=244&ion=7 - Peer-group interactions are available in the platform - The LMS platform is linked to social media like Linked-in and FB. Wherein students can add their social media profiles and share their achievements. - The faculty members can divide the classes into smaller cohorts and conduct breakout room sessions with them individually. - https://lms.srisriuniversity.edu.in/course/view.php?id=244 Customized dashboards are enabled for different stakeholders: • Student dashboard • Faculty Dashboard • University leadership dashboard • https://lms.srisriuniversity.edu.in/course/view.php?id=244 By integrating a secure and efficient payment gateway, the LMS ensures that financial transactions are handled smoothly and securely, providing convenience for users and administrators alike. It provides multiple payment options to the learner through enabling Payment gateways for digital payments towards the online fee payments. This provisioning is to benefit the students with respect to new admissions and the continuation fee payments. The students will have the option to choose the mode of payment by enabling the multiple payment gateway.
Tracking the delivery of a Course or programme	Program Delivery The programme delivery is effectively done through the predefined academic Calendar and the flow of events. It is ensured through the LMS that the academic modules like SLM, A/V Lectures, and PCP Live Sessions are executed. Regular assessments are also enabled as per the exam schedule and eligibility criteria for the batch and the running semesters. Learners progression Learners can go to LMS and click on Activity completion to track his progress. The faculties can monitor the progression of learners with respect to the subject and the programme. Reports are generated on the learner attendance, activity completion, Quiz performance, success rate in term exams with respect to pass/fail in an automated system.
Technical Know-how or Skills Requirements	The LMS is very much user friendly and the learners can navigate easily through the student portal and Mobile phones with basic internet connections. Also the Student Demo Videos are created and shared with all the learners while sending learners credentials by mail. The university conducts orientation before the start of the session and runs periodical " Know your LMS " training sessions to the students to bring them to complete ease towards learning and assessments.

Briefly write on ICT facilities available/ to be ready dedicated for the implementation of Online Courses :-

The university has set up the dedicated ICT Facilities for effective implementation and delivery of online programmes. The IT infrastructure is modern, scalable and of the state of the art technology. The ICT facilities are built to ensure the following: 1. A learner authentication - integrated with Aadhaar or other government recognised identity for Indian learners and Passport for foreign learners; 2. Learner registration - through a web application with supporting documents; 3. Payment gateway – using Digital Payment system; 4. Learning management System - which tracks the delivery of Programme, learner’s engagement, assessment, results, and reporting supported by analytical tools that can help the teachers to extract and use the relevant reports.
